INDEX.

A

Abdomen, Pathological and Practical Observations on Diseases of the (review), 114
Aberdeen University, pass-list of, 193; regulations of, 340; the M.D. degree of, 437
Abortion, after tapping an ovarian cyst, ovariotomy five months afterwards, when the uterus was found to contain a second dead fœtus, 256; procuring, 258; and its procurers, 627
Absinthe, 348
Accident, serious, 606
Accidents, compensation for, 271
Acrobatism, the dangers of, 243
Acton, Mr. W., small-pox among sheep, 292
Adams, Dr. A. L., report of a case of encysted abscess in both hemispheres of the brain, 34
Addenbrooke's Hospital, Cambridge, 35, 491
Admissions, 419
Ague, the origin of, 523
Ainsworth, Mr. S., preservation of animal food, 23
Air, microscopical examination of the, 529; and Water, their Impurities and Purification (review), 683
Air-passages, intrusion of a foreign body into the, and its exit through the parietes of the chest, 346
Aitken, Dr. W., on the Growth of the Recruit and young Soldier (review), 257
Alcohol, Is it food? 198; from coal gas, 221; the habitual use of, 335; in hospitals, 450
Alcoholic therapeutics, 510
Aldershott Infirmary, 603
Aldridge, Dr. J., potash in scurvy, 260
Alexander, Mr. T., the late, 336
Alnmouth, spa at, 435
Althaus, Dr. J., on rheumatism of the deltoid muscle, 274; the Spas of Europe (review), 286
Amaurosis consequent on acute "abscess" of the antrum produced by a carious tooth, 12
America, the duties on drugs and medicine in, 75; treatment of military surgeons in, 271
American medical students, 606
—— soldiers in hospital, 710
—— war, surgery of the, 349
—— weights and measures, 12
Amputation 200 years ago, an, 340
Amyloid disease, 651
Anatomy Act, the, 577
Anchylosis of knee-joint at right angles forwards, 650
Aneurism, of the internal iliac and common femoral arteries, treated by digital pressure, 64; the successful treatment of, by forcible flexion, 155; diffused, of the popliteal artery, followed by gangrene of the limb, and death from erysipelas after amputation, 389
Aneurismal tumours of the neck, 420
Aneurisms of the arch of the aorta, 149
Animal food, preservation of, 23
Animals, the Uses of, in relation to the Industry of Man (review), 173
Ankle-joint, excision of the, 35; an unsuccessful case of excision of the, 171
Annandale, Mr. T., operations performed at the Royal Infirmary, Edinburgh, during November, 625
Anonymi, 98
"Anonymous," 194
Ansell, Dr. T., the preliminary examination at the College of Surgeons, 422
Anstie, Dr., inaugural address by, at Westminster Hospital, 308
Antiligature forceps and intracisors, their mode of action and value demonstrated, 328
Antimony, 580
Anus, artificial, treatment of, 467; for internal strangulation, 48
Aphonia from cold, on a case of sudden, 589
Apiol, a substitute for quinine, 710
Apothecaries' Hall, pass-lists of, 34, 62, 75, 103, 131, 167, 193, 221, 242, 271, 298, 348, 377, 405, 435, 463, 492, 530, 551, 578, 605, 634, 662, 692, 710; dinner at, 562; regulations of, 312; of Ireland, regulations of, 344
Appointments, medical, 26, 54, 76, 104, 133, 194, 222, 244, 272, 300, 350, 379, 407, 436, 465, 494, 522, 552, 580, 607, 636, 664, 692, 711
Apprenticeship question, the, 178
Archeopteryx macrurus, the feathered fossil, 602
Arm, crushing of the, between two cog-wheels, a case of, in which amputation of the shoulder was performed, 284; left, malignant tumour of the, embedded in muscular structure, 700
Army, British, health of the, 236; mortality in the, 299; medical attendance in the, 378; On some of the more important Diseases of the, with Contributions to Pathology (review), 506; causes of the rejection of recruits in the, 579; invaliding in the, 704; death-rate in the, 710
—— and Navy medical services, 301
—— general hospitals and hospital ships, 464
—— hospital corps, 521
—— Medical Department, 392, 603, 704; regulations of, 314; injustice in the, 681
—— Medical School, 193, 376, 490
—— Medical Warrant, 490
Arsenical room-papers, 82, 435
—— colouring, the repression of, 451
Artemesia absinthium (oil of wormwood), poisoning by, 619
Arterial obstruction from separated cardiac vegetations, followed by gangrene and death, two cases of, 13
Arts of prescribing, 523
Asbestos paper, 662
Ashe, Dr. T., on the solution of vesical calculi, 347
Ashton, Mr. T. J., Prolapsus, Fistula in Ano, and Hæmorrhoidal Affections, their Pathology and Treatment (review), 41
Assimilation, and the influence of its defects on the urine, 613
Association for Medical Officers of Asylums and Hospitals for the Insane, 349
Astigmatism, on, 594
Astley Cooper prize, 103
Asylum farms, 635
Atmosphere, the, and the circulation of the blood, 271
Atmospheric tides, 103
Auriscope, new, 702
Australian flora, the, 271
Axilla, removal from the, of a large tumour, the nature of which was at first doubtful, 172

B

Baines, Dr. M., on puerperal pyæmia, 651
Baker, Mr. W. M., contributions to the statistics of cancer, 64
Ball, Dr. A., improved extending and counter-extending fracture apparatus for lower extremities, 480
Balloon ascents, notes of effects experienced during recent, 559
Barbadoes, fever at, 435
Barclay, Dr. A. W., introductory address at the Western Medical and Surgical Society, 536
Barker, Dr. T. H., venomous caterpillars, 134
Barwell, Mr. R., on the natural history and treatment of hip-joint disease, 557
Baudens, M. L., on Military and Camp Hospitals, and the Health of Troops in the Field (review), 593
Baylis, Mr. A. W., singular accident from blasting, 14
Beale, Dr. V., is dysentery antagonistic to cholera? 352
Beale, Dr. L. S., on the doctrine of irritation and on the nature of the early changes in inflammation, 615
Becher, Dr. E., the Medical Department of the Army, 704
Beddoe, Dr. J., the death-rate of Liverpool, 27
Begbie, Dr. J. W., Contributions to Practical Medicine (review), 479; introductory lecture to the course of clinical instruction by the ordinary physicians of the Royal Infirmary, Edinburgh, 558, 583
Bell, Dr., the late, 551, 663
Belladonna berries, eating of, 299
Bennet, Dr. J. H., Mentone, the Riviera, Corsica, and Biarritz, as Winter Climates (review), 508
Bennett, Dr. J. H., on the treatment of pneumonia, with the results of 105 carefully recorded cases, 180
Bequests, munificent, 24, 299, 612, 663
Bernard, Dr., of Cork, death of, 103
Bernays, Dr. A. J., the Science of Home Life (review), 65
Bethlehem Hospital, 302
Bigg, Mr. H. H., American method of applying extension in the treatment of morbus coxarius, 340; on the Mechanical Appliances necessary for the Treatment of Deformities (review), 332; surgical instruments in the International Exhibition, 546
Birkenhead, new hospital at, 405; Borough Hospital, 634
Birmingham and Midland Eye Infirmary, 299
—— annual charitable collections, 493
Births, marriages, and deaths, 26, 54, 105, 133, 194, 222, 244, 272, 300, 350, 379, 407, 465, 494, 552, 580, 607, 636, 692
—— in Scotland, 635
Bishop of Labuan and the Borneo pirates, 104
Bismuth, medicinal, on the arsenical impurities of, with a mode of purification, 661
Black, Dr. D. C., professional titles, 163
Bladder, extroversion of the, with double hernia, use of a new apparatus in a case of, 114; on a case of retention of urine from impassable stricture of the urethra, cured by the perineal section of the, 530; a piece of gutta-percha removed from the, 594, 617
Blades, Mr. C. M., the new British Pharmacopœia, 491
Blasting, singular accident in, 14
Blenkinsop, Mr. H., Chamberlen's translation of Mauriceau, and rarity of the first edition, 694
Blood, circulation of the, and the atmosphere, 271; coagulum of, in femoral veins, 650; effect of magenta on the, 711
Boils and carbuncles, on the subcutaneous treatment of, 13
Bombay, health of, 604; military sanitaria in, 663
Bond, Mr. J., the charity of the turf, 21
Bonnet, M., inauguration of the statue of, 104
Borthwick, Mr. A., Mr. Syme's late case of iliac aneurism, 79
Boston, fever at, 520
Bowman, Mr. J. E., the Practical Handbook of Medical Chemistry (review), 537
——, Mr. W., on glaucomatous affections and their treatment by iridectomy, 191
Brain, report of a case of encysted abscess in both hemispheres of the, 34; of man and apes, 510
Brande, Dr. W. T., Chemistry (review), 679
Breast, chronic hypertrophy of the, simulating mammary tumour, 418
Breasts, a woman with three, 27
Brenchley, Mr. H. C., on necrosis, 547
Brent subscription, the, 575
Brighton drainage, 292, 334, 404; report on the, with a chemical and microscopical analysis illustrative of the pollution of the sea and well waters, 597, 627
—— Railway accident case, the medical evidence in the, 210
Brinton, Dr. W., on hydatid cyst of the liver, 639
Bristowe, Dr., introductory address by, at St. Thomas's Hospital, 363

British Association for the Advancement of Science, 24, 348, 399
—— Medical Association, 24, 53, 142; the thirteenth annual meeting of the, 145, 180, 213, 237; and its *Journal*, 191, 213
—— medical exclusion, 143
Brodie, Sir B. C., memoir of, 452, 482; portait of, ib.; funeral of, 492; the late, 521; bust of, 523
Brown, Dr. C. B., mortality in lying-in hospitals, 518
——, Mr. I. B., on Ovarian Dropsy: its Nature, Diagnosis, and Treatment (review), 287
——, Mr. I. B., jun., on a case of rheumatic fever; chorea by metastasis; death, autopsy, and remarks, 560
Brown-Séquard, Dr. C. E., remarks on a case of wound of the spinal cord, 166
Buchan Medical Society, the, 221

MIRROR OF THE PRACTICE OF MEDICINE AND SURGERY IN THE HOSPITALS OF LONDON.

Central London Ophthalmic Hospital.—Malposition and cataractous state of the lenses occurring in four members of the same family; clinical remarks, 618

Charing-cross Hospital.—Various surgical cases submitted to operation, and at present under treatment, 35—Clinical remarks on a case of chronic dysentery, treated with Ipecacuanha, 62—An unsuccessful case of excision of the ankle-joint, 171—Case of decapitation of the humerus in a child twenty months old, 286—Symptoms of poisoning by phosphorus averted by early treatment, 300

Great Northern Hospital.—Hydatid tumour of the loin; operation; cure, 60—Stone in the bladder; lithotomy; secondary hæmorrhage; pyæmic symptoms; recovery, 448

Guy's Hospital.—Clinical remarks on a fatal case of leucocythæmia splenica, 9—Clinical remarks on a case of excision of the head and neck of the femur, 36—Fatal phlebitis after scarlatina, 63—Case of movable kidney, in a healthy girl, 139—Lateral curvature of the spine in a most extreme degree; fatal result; Addison's disease of the supra-renal capsules, 140—Empyema the result of the bursting of hydatids of the liver into the pleura and lung tissue; fatal result, 229—Traumatic tetanus from slight scalp wound; fatal result, 258—Case of extra-uterine fœtation; removal of fœtus by abdominal section, 283—Carcinoma of œsophagus; rupture into the chest, 284—Wound of chest below the right shoulder-blade from a knife, involving the lung, diaphragm, and liver; death from pulmonary hæmorrhage, 389—Simple tumours of the breast, or adenoceles, 418—Six cases of stone in the bladder occurring within eleven weeks; removal by operation; recovery in all, 445—Large hydatid tumour developed between the adductor muscles of the thigh, 447—Phthisis, with sudden death by hæmoptysis, ib.—Removal of a bulbous nerve from a painful stump of the arm; narrow escape from death by chloroform, 533—Diphtheria, extending to the nose and throat; fatal result, 533—Disease of the spine, with lumbar abscess; attack of fatal diphtheria, 589—Melanosis of the toes; partial amputation of the foot by Chopart's operation, 617—Unilocular ovarian tumour of two years' and a half's duration; ovariotomy; recovery, 674

King's College Hospital.—Clinical remarks on a case of cancer of the uterus, 88—Extroversion of the bladder from congenital deficiency, with a double hernia; failure of operation; use of a new apparatus, 114—Chronic thickening of the external organs in the female, with stricture of the rectum; operation; recovery, 172—Clinical remarks upon a case of removal of the upper jaw, for a tumour extending to the base of the cranium, 205—Clinical remarks on a peculiar form of disease of the jaw in an aged patient, 255—Clinical remarks on polypi of the uterus, 328—Clinical observations on a case of prolapsus of the rectum, operated on by the clamp and nitric acid, 371—Stone in the female bladder; extraction through the vagina; formation of a fistula, 387—Stone in the female bladder; extraction by division of the urethra and dilatation of the neck of the bladder; recovery with stillicidium urinæ, 388—Stone in the bladder of a female child, successfully removed by lithotrity; clinical remarks, ib.—Double ovarian tumour, the left multilocular, with ascites; ovariotomy; death on the twenty-fourth day from pelvic abscess bursting into the peritoneum; clinical remarks, 416—Three cases of successful lithotomy, two of them in old patients, 501—Melanotic deposit in an ulcer inside the lip; extirpation, 617—Clinical remarks on a case of malignant tumour of the left arm, embedded in muscular structure; removal, 700

London Hospital.—Calculus vesicæ; lithotrity; clinical remarks, 89—Clinical remarks on a case of amputation of both legs; pyæmia; removal into the open air; death, 207—Development of cancer in an innocent glandular tumour, 618—Clinical remarks on five cases of disease of the urinary organs, 643—Varicose veins, as large as ropes, obliterated by needles, 701

London Surgical Home.—Eleven cases of ovarian disease, in which ovariotomy was performed, with recovery in six, 675

Metropolitan Free Hospital.—Dislocation of the femur in a boy; reduction without extension, 284—Hydatid cyst in the liver; puncture and evacuation; recovery, 389—Multilocular ovarian dropsy for fifteen months; ovariotomy; recovery, 677

Middlesex Hospital.—Clinical remarks on a case of perforating wound of the cornea and iris by a piece of iron, which became encysted in the vitreous humour, 206—Clinical remarks on two cases of phlyctenular conjunctivitis, illustrating the beneficial effects of the insufflation of calomel, 337—Large hydatid cyst in the abdomen, communicating with the gall-bladder; tapping and removal of 240 ounces of bilious fluid; rapid refilling of the cyst; fatal result; interesting autopsy, 476—Clinical remarks on two cases of irido-choroiditis; iridotomy; rapid recovery, 502—Case of partial general paralysis (probably diphtheritic), 590—Diphtheritic paralysis, ib.—Pedunculated exostosis of the lower end of the femur; ablation, 649—Multilocular ovarian dropsy; ovariotomy; fatal result, 677—Multilocular ovarian tumour of two years' duration; ovariotomy; recovery, 699—Multilocular ovarian tumour of three years' duration; ovariotomy; death, 700

Royal Free Hospital.—Consecutive attacks of acute rheumatism, followed by pericarditis, endocarditis, and pleuritis, 10—Compound fracture of the leg, with previous rachitis; excision of the protruding portions of the tibia; recovery, 88—Operations for fistula in ano with Gant's concealed fistula knife, 172

Royal Infirmary for Children.—Case of diphtheritic paralysis, with clinical remarks, 562

Royal London Ophthalmic Hospital.—Chamois in the thumb of a midwife; secondary gush; sore throat, and iritis, 337—Clinical remarks on a case of temporary paralysis of the accommodation of the eye, 372—Acute glaucoma; iridectomy; good result, 503

Samaritan Hospital.—Vesico-utero-vaginal fistula; cure by one operation, 531—Four cases of ovarian disease submitted to operation, with recovery in two, 676

St. Bartholomew's Hospital.—Good effects of the chlorinated soda as an internal remedy in scarlatina, 12—Complete and unyielding abduction of both thighs; secondary talipes equinus; successfully treated by forcible extension, 87—Cancer of the mammary region in a man; excision of the disease; recovery, 115—Suppurative phlebitis, chiefly in the lower limbs, some weeks after confinement; recovery, 146—Removal from the axilla of a very large tumour, the nature of which was at first doubtful; recovery, 173—Empyema in a child; recovery for the present, with deformity of the chest and spine, 230—The mode of action of the antiligature forceps and intrusors; their value demonstrated, 329—Probable hydatid tumour, situated between the rectum and the bladder; evacuation by the trocar, with success, 476—Symmetrical mammary tumours in the breasts; an interval of seven years between two operations for removal, 504—Disorganization of the wrist through extension of disease from the thumb; amputation of the forearm, 505—Ablation of the greater portion of the scapula for medullary disease, in a lad aged fifteen years, 530—Diphtheritic paralysis, affecting the throat and lower limbs; recovery, 563—Strumous disease of the testicle; ligature of spermatic cord, followed by sloughing, and discharge of the testicle through an ulcer in the scrotum, 647—Multilocular ovarian disease; ovariotomy; fatal result, 677

St. George's Hospital.—Acute rheumatic peritonitis, supervening upon subacute rheumatism; sudden death, 10—Laceration of the right kidney and its bloodvessels; hæmaturia; fatal result on the fourteenth day, 140—Exposure of the spinal cord from necrosis of vertebræ; fatal paraplegia; autopsy, 207—Empyema and pleuritis in typhoid fever; extension of the first in front of the pericardium; fatal result, 230—Traumatic tetanus from wounds of the elbow and thumb; treatment by counter-irritants to the spine, quinine, and belladonna; fatal result, 259—Tincture (?) tetanus, from supposed injury to the cheek; ineffectual treatment by belladonna, 357—Abortion after tapping an ovarian cyst; ovariotomy five months afterwards, when the uterus was found to contain a second dead fœtus; fatal result, ib.—Crushing of the arm between two cog-wheels; amputation at the shoulder-joint; sloughing of the flaps; recovery with a good stump, 384—Obstruction and ulceration of the vermiform appendix, producing fatal peritonitis, 427—Malignant disease of the left os innominatum, compressing and separating the iliac-sacrum of the great ischiatic nerve, producing severe pain and death, 531—Two cases of diphtheria, ending fatally, 564—Diphtheria in an infant; fatal result; autopsy, 591—Sudden death from the lodgment of artificial teeth between the epiglottis and base of the tongue, 691—Chronic necrosis of the femur in a boy; accidental fracture; non-union; amputation; recovery, 701

St. Mark's Hospital.—Clinical remarks on a case of enlargement of the spleen, 10—Cases illustrative of the action of the tincture of the veratrum viride, with clinical remarks, 63—Traumatic tetanus after fracture of the forearm; treatment by chloroform and aconite; recovery, 225—Clinical remarks on stone in the female bladder; vesico-vaginal lithotomy, with immediate closure of the wound by suture, 370—Chronic hypertrophy of the breast, simulating mammary tumour; recovery, 418—Lithotomy in the female by the subpubic method; rapid recovery from the operation, and from incontinence of urine of nearly four years' standing, 504—Severe post-partum hæmorrhage; recovery, 532

St. Thomas's Hospital.—Substance of a clinical lecture on a case of necrosis of the head of the fever; remarks by excision, 30

University College Hospital.—Wound of the throat in a boy, twelve years old; recovery, 115—Clinical remarks on a well-marked case of traumatic delirium, 477—The employment of telegraph wires in closing wounds in various cases, 700

West London Hospital.—Acute glaucoma; iridectomy; relief of pain and improvement of vision, 116—Empyema simulated by extra-thoracic abscess in a phthisical patient, 231—Idiopathic tetanus from sitting on the grass; recovery, 258—Two cases of cataract; extraction by lower section of cornea; recovery of sight, 327—Paralysis of the throat and larynx following diphtheria; good recovery, 564

Westminster Hospital.—Esmarch's operation for closure of the mouth from cicatrices, 26—Warty growths on the labia effectually removed,

119—Clinical remarks on the sequel of a case of emphysema, in which paracentesis thoracis was performed, and a drainage-tube inserted, 229—Clinical remarks on a case of diffused aneurism of the popliteal artery; gangrene of the limb; amputation; death from erysipelas, 265—Chronic mammary tumour; successful removal, 419—Complete closure of the jaws by cicatrices; Esmarch's operation; satisfactory result, 443—Case of poisoning and of forty years' duration successfully treated by nitric acid, 583—Two successful cases of median lithotomy; one, in a child, successful; the other, in adult, fatal, 591—Gutta-percha bougie broken into the urinary bladder; extraction by the urethra after treatment of the stricture by Holt's dilator, 617—Sequel of a case of amputation of the thigh where pulmonary tuberculosis was present, 649

Swearing, a case of hard, 132
Sweden, duration of life in, 407
Syphilis, report upon, with reference to the more mixed and unusual forms of the primary symptoms, 231; the transmissibility of, by vaccination, 392; in the united services, 433; and glass-blowing, 579
Syphilitic eruptions, on, 586
—— inoculation and its relations to vaccination, 110, 275
—— ulceration, report of a case of adhesion of the soft palate to the posterior wall of the pharynx, following, 529
Syphilography, British, 243
Syphon-trocar for ovariotomy and other purposes, description of a, 13

T

Tænia from eating pork, 635
Tapeworm, in dogs, 223, 246; pumpkin seeds as a remedy for, 578
Tasmania, the Products and Resources of (review), 41; vital statistics of, 104
Taylor, Dr. A. S., Chemistry (review), 678
——, Dr. J., diseased mutton, 553
——, Mr. J., idiopathic tetanus, 606
——, the murderer, the head of, 348
Technologist, the (review), 373
Teeth, artificial, 301, 352, 370, 409; rose-coloured, 579; artificial, sudden death from lodgment of, between the epiglottis and base of the tongue, 580; permanent, retarded development of the, 635
Telegraph sutures in closing wounds in various cases, on the employment of, 700
Temperance movement, the, 586
Testicle, strumous disease of the, and discharge through an ulcer in the scrotum, 647
Testimonials, on, 260
Tetanus, traumatic, from fracture of the forearm, successfully treated by chloroform and aconite, 255; fatal case of, from slight scalp wound, 256; idiopathic, from sitting on the grass, ib.; traumatic, fatal case of, from wounds of the elbow and thumb, treated by counter-irritants, quinine, and belladonna, ib.; from supposed injury to the cheek, ineffectually treated by belladonna, 257; intermittent, during pregnancy, 331; idiopathic, on a case of, terminating in recovery, 588; idiopathic, 637, 666
Thames, quarantine in the, 262
Thigh, case of amputation of, 35; amputation of, where phthisis was present, 649
Thighs, complete and unyielding abduction of both, successfully treated by forcible extension, 87
Thompson, Dr. D. E., and the Madras Government, 241; native Indian surgeons, 575
Thomson, Dr. E., on malignant pustule, 273
Thoracentesis, on the practice of, in serous effusion into the pleura, 364
Thorax and lung, wounds of the, attended with pneumothorax and emphysema, recovery in a case of, 65
Throat, wound of the, in a boy aged twelve, 115; affections of the, in Scotland, 271
Thudichum, Dr. W. L., on the treatment of dropsies in connexion with diseases of the kidneys, the liver, and the blood, 533
Tice, Dr., the late, 243
Tilt, Dr. E. J., on Uterine and Ovarian Inflammation, and on the Physiology and Diseases of Menstruation (review), 570
Tinea tarsi, on, 439
Titles, the question of, 134, 626, 666
Tobacco, medicated, 302
Todd, Dr. A., the Hospital for Stone, 105
——, Dr., the late, 53
Toe-nail, curved horn, 37
Tomes, Mr. J., testimonial to, 103
Tooth driven into the jaw, a, 457
Traer, Mr. J. E., the surgical instruments at the International Exhibition, 545
Traill, Dr., death of, 167; the late, 209
Transfusion apparatus, new, 407
Trichiasis, or districhiasis, and entropium, on, 584
Triplets, three cases of, 605
Tropics, Health in the (review), 595
Turck, Dr. L., Clinical Researches on Different Diseases of the Larynx, Trachea, and Pharynx, examined by the Laryngoscope; preceded by Historical Remarks on the Practical Use of the Laryngoscope (review), 506
Turf, the charity of the, 21
Turkish bath, the, 542, 663
—— military surgeons, 299
Turning in cases of disproportion, on, 285
Twin (?) abortion, report on a, 116
Tylecote, Dr. J. H., a tooth driven into the jaw, 457
Typh fever, mortality from, 127, 195, 233
Typhoid fever propagated by contagion, 93; influence of antimonial cholera in the progress of, 193; at Rotherham, 243
Typhus, and the cotton-famine, 486, 488; at Preston, 539; in Lancashire, 574, 601

U

University College, 551; Hospital, 436; Students' Christian Association, 709
—— honours, 492
—— of Melbourne, the Professor of Physiology at the, 103
Unlicensed medical practitioners, 606
Unregistered practitioners, 79
Uræmia simulating opium poisoning, on a case of, 331
Urethra, on a case of retention of urine from impassable stricture of the, cured by perineal section of the, 530
Uric-acid calculi, the determination of, 192
Urinary organs, remarks on five cases of disease of the, 646
Urine in Health and Disease, a Chart of the Principal Constituents of the (review), 258
Uterine and Ovarian Inflammation, and on the Physiology and Diseases of Menstruation (review), 570
Uterus, cancer of the, clinical remarks on a case of, 88; polypi of the, clinical remarks on, 328

V

Vacancies, medical, 26, 54, 76, 104, 133, 194, 222, 244, 272, 300, 350, 378, 407, 436, 465, 580, 607, 636, 664
Vaccinated recruits, 416
Vaccination, 348; in Bengal, 221; in whooping-

cough, 297; for distemper in dogs, 299; the transmissibility of syphilis by, 392; fees for, 619; Act, 130, 553, 609
Vagina, a case in which air was expelled from the, 116; ruptured, during labour, child in abdomen three hours and a half, pelvic cellulitis, recovery, 390
Vaginal closure, on five cases of, 535
Varicose veins of a severe form, obliterated by needles, 701
Vegetarianism, 291
Venereal disease in the army, 465
Ventilation, a Treatise on, Natural and Artificial (review), 64; of steamers, 68
Veratrum viride, tincture of, cases illustrative of the action of, 63; as a Therapeutic Agent (review), 93; on the employment of, in the treatment of disease, 189
Verbascum thapsus, on, 629
Vermiform appendix, obstruction and obliteration of the, producing fatal peritonitis, 477
Verruca necrogenica, 458
Vesical calculi, on the solution of, 347
——— calculus in the female, removed through vagina, 479
Vesico-vaginal fistula, cured by one operation, 531
——— lithotomy, clinical remarks on, 370, 387
Vested interests, 236
Veterinary Science, Manual of (review), 422
Vice of cities, the, 69
Village hospitals, 609
Vines, Mr. C., on the treatment of congenital rupture at the groin, 660
Vivisection, 221
Vocal cords, acute inflammation of the, as seen by the laryngoscope, producing complete aphonia, rapidly cured by topical treatment, 329
Volcanoes, the Character of their Phenomena, &c. (review), 703
Volunteer surgeons, precedence of, 336
Vyse, Mrs., 53, 76

W

Wade, Dr. W. F., notes upon diphtheria, 208
Wail, Mr. T., infanticide, 491
Walshe, Dr. W. H., address on medicine at the meeting of the British Medical Association, 150
